

CSC150 Peer Review

Your Name: Pedro Presidio
Teammate Name: Amber Vinsonhaler
Assignment: Math Tutor V1

This work with Amber was fun. She was fast understanding concepts, we had a nice workflow during the class time however, we struggled a little to work outside of class. Even without a time out of class, we were able to finish everything and only have left the peer review and finished adding my comments to complete the assignment. I would surely enjoy working with Amber again later.
